Huttig SATIN BRAND
ST. LOUIS MILLWORK
SMOOTH AS A SMILE

HUTTIG SASH & **St. Louis**
DOOR CO.

IMPORTANT

We are not responsible for goods damaged in transit. The Railroad Companies are responsible for **SHORTAGES, BREAKAGE OR DAMAGE** and will pay claim when noted on expense bill. You must examine shipment carefully before signing for or taking from railroad station.

Check carefully with bill of lading or expense bill and if a shortage or breakage is found insist upon Agent making written record on expense bill. This is your protection. Notify us if Agent refuses to make proper endorsement for loss or damage on expense bill.

All claims which have not been filed within 4 months from date of shipment will be refused by railroad companies.

It is our desire to assist our customers in collecting claims but your co-operation as outlined above is necessary to make this service effective.

SATIN BRAND

This Copy of

Huttig's Handy Helper

Is A Book Of

STANDARD DESIGNS

Of Dependable Millwork Carried in Stock in Our St. Louis
Warehouse

Covers the stock items "of every-day sale," except those
subject to frequent market changes, such as panel doors, sash,
columns, moulding etc.

For Current Prices on These Items See Our Latest

Supplement and Bunch Car Bulletins

RETURNED GOODS

Never return any goods without first obtaining written
approval and shipping instructions from us. All stock material
purchased from us, if returned in good condition and salable
will be credited at the invoice price, less a service charge of 10
per cent after freight has been deduced. No allowance will be
made for odd or special work.

ORDERS FOR SPECIAL ITEMS

Work that is cut and in process of manufacture, cannot be
changed or cancelled, except at the expense of the purchaser.

ST. LOUIS

Huttig

SATIN BRAND

All Prices Quoted Are F. O. B. St. Louis or E. St. Louis

Terms: 30 Day's Net

or

Cash discount of two per cent if paid within ten days from date of invoice on net amount, after deducting freight charges when sold delivered.

or

A Sixty Days Trade Acceptance without interest will be accepted if sent within ten days from date of invoice.

What is THE TRADE ACCEPTANCE?

When a buyer signs an order for a bill of goods, he assumes an obligation to pay for those goods according to the terms of sale, written or printed, on the order.

When he signs a TRADE ACCEPTANCE, he has not made a new promise; he merely has put the same promise in a new form.

In the old form the buyer's promise was not bankable; in the new form it is.

What is the result?

By his act in signing the TRADE ACCEPTANCE, which has not increased his obligations, but which, on the contrary, has greatly strengthened his credit position, the buyer has taken a great stride toward increasing the working capital of the nation.

The consequences of the signed TRADE ACCEPTANCE carry far beyond the immediate transaction between buyer and seller. Credit strain is relieved, capital is released and the result cannot fail to benefit the financial condition of the whole country.

FREIGHT ALLOWED

FREIGHT EQUALIZED

On goods sold freight allowed or freight equalized your remittance must be accompanied by the original receipted expense bill before credit will be allowed.

Crating and Bundling Charges

Unless otherwise instructed we will bundle all goods for shipment in the following manner and charge for them as specified.

All charges are to cover the actual cost of labor and material.

Glazed Windows and Sash—

Crating Charges Net

“Satin Brand”

Reg. U. S. Patent Office

**And Forever End Your
Mill Work Troubles**

It's not the price you pay that determines the value of an article, but the satisfaction and the service received that determines the real worth.

If in Mill Work you want just wood you can secure a truck-load for little or nothing. If you just want Mill Work, you can get it at most any old price.

But if you want Real Interior Trim—Trim that fits—that is correct—that is perfect in every detail—you have to specify the brand the same as in buying any article that possesses a real value.

Mill Work, like all manufactured articles, differs greatly in quality of material and workmanship. A cheap price invariably brings delay, errors and disappointments, while a fair price insures quality, service and satisfaction—and

YOU KNOW IT

So—Why Experiment?

Specify “SATIN BRAND”

And Forever End Your Mill Work Troubles
